

United4Change

What we do at U4C:

We built United4Change to solve the trust problem in charity, by using technology that proves every donation does what it says it will. Giving has never been this transparent or borderless.

This onboarding guide walks you through how to explore, understand, and begin using the U4C website.

Navigating the U4C Website

Navigating the Homepage

Active Campaigns

These are verified campaigns being run by registered NGOs. Each campaign undergoes a review and screening process to help ensure transparency, legitimacy, and accountability before being published on the platform.

Our Partners x The U4C Account Sections

This section indicates our key infrastructure partner enabling USDC-powered donation flow, Circle.

The other section includes a section that acts as shortcut access to Donor, NGO and Treasury accounts.

Why Choose Us

This section explains the key principles behind the U4C platform.

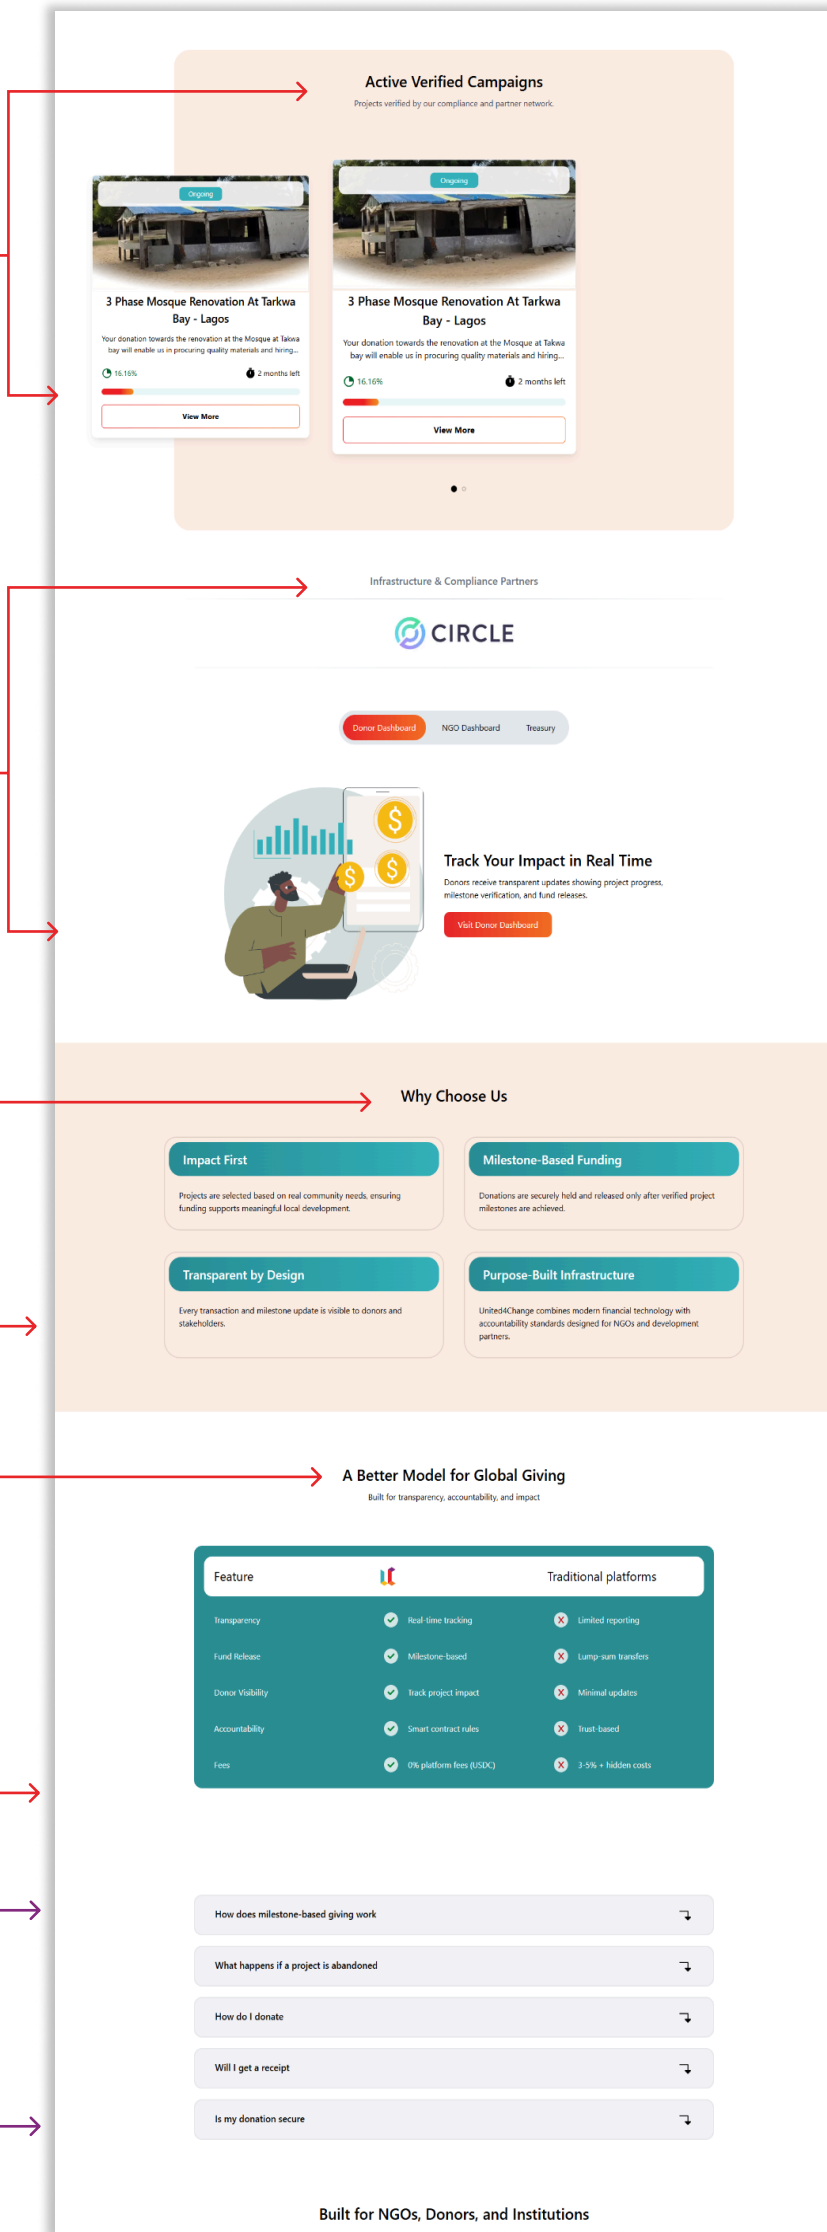

A Better Model for Global Giving

This section compares United4Change platform with traditional donation platforms. Compared to traditional platforms which may have limited reporting, lump-sum transfers, and less transparency, we're an all in one package.

Donation Protection (FAQ Section)

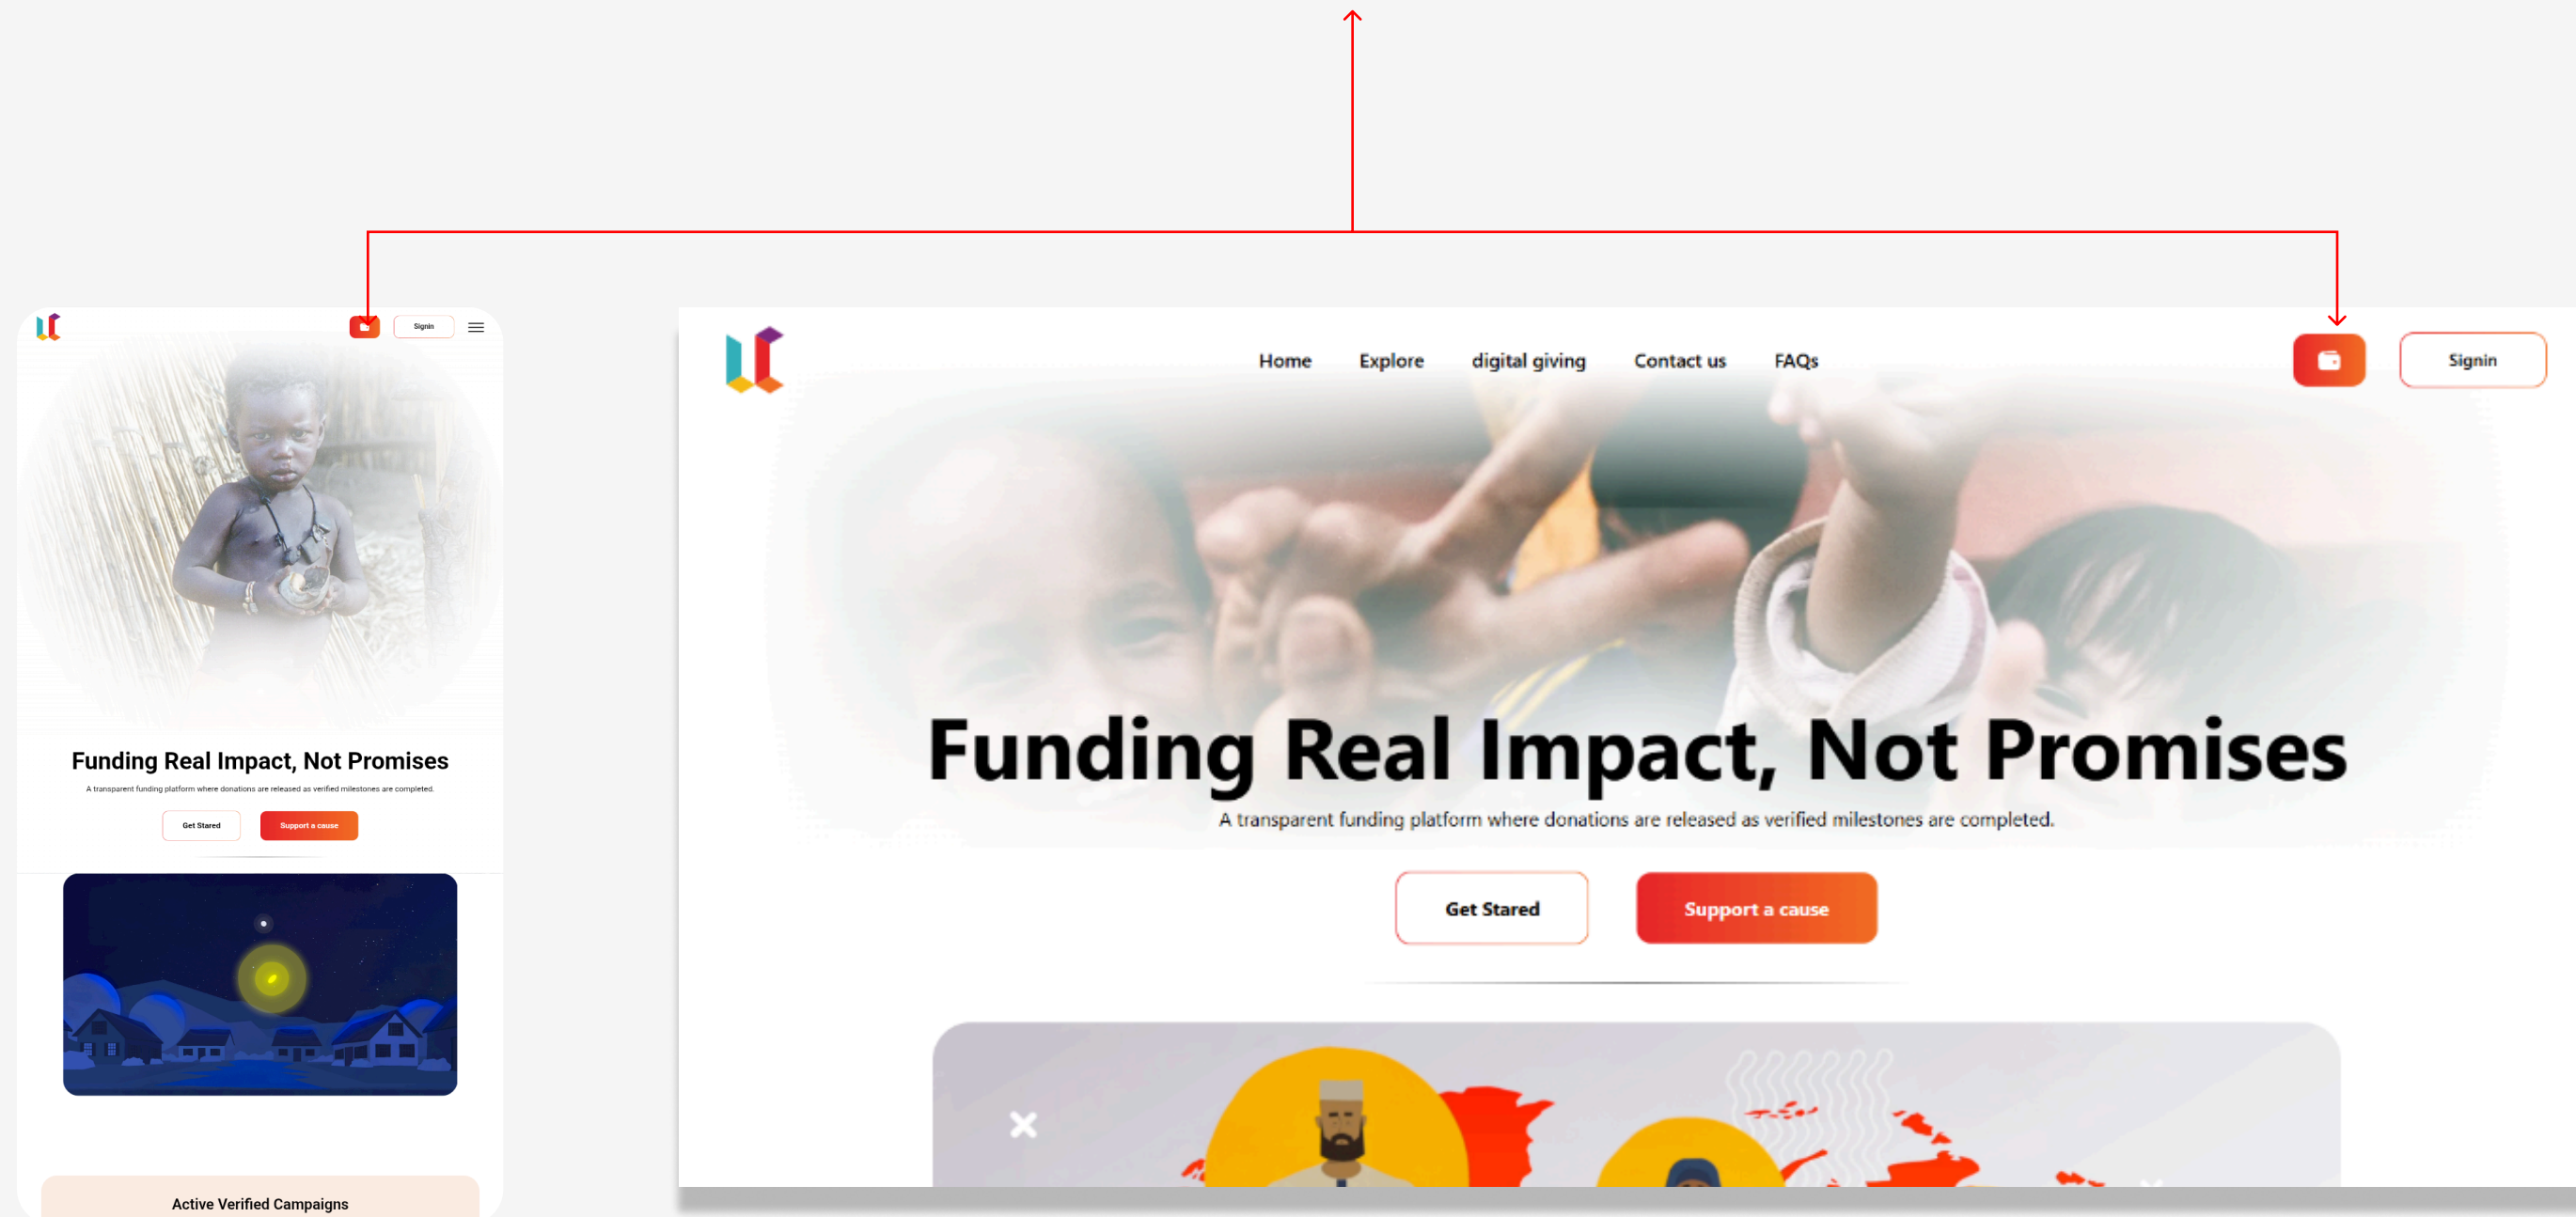

Each question expands to reveal detailed explanations.

This expandable FAQ section answers some of the common questions you may have as a donor or as an NGO.

Click on this icon and select your preferred wallet from the list of digital currencies available.

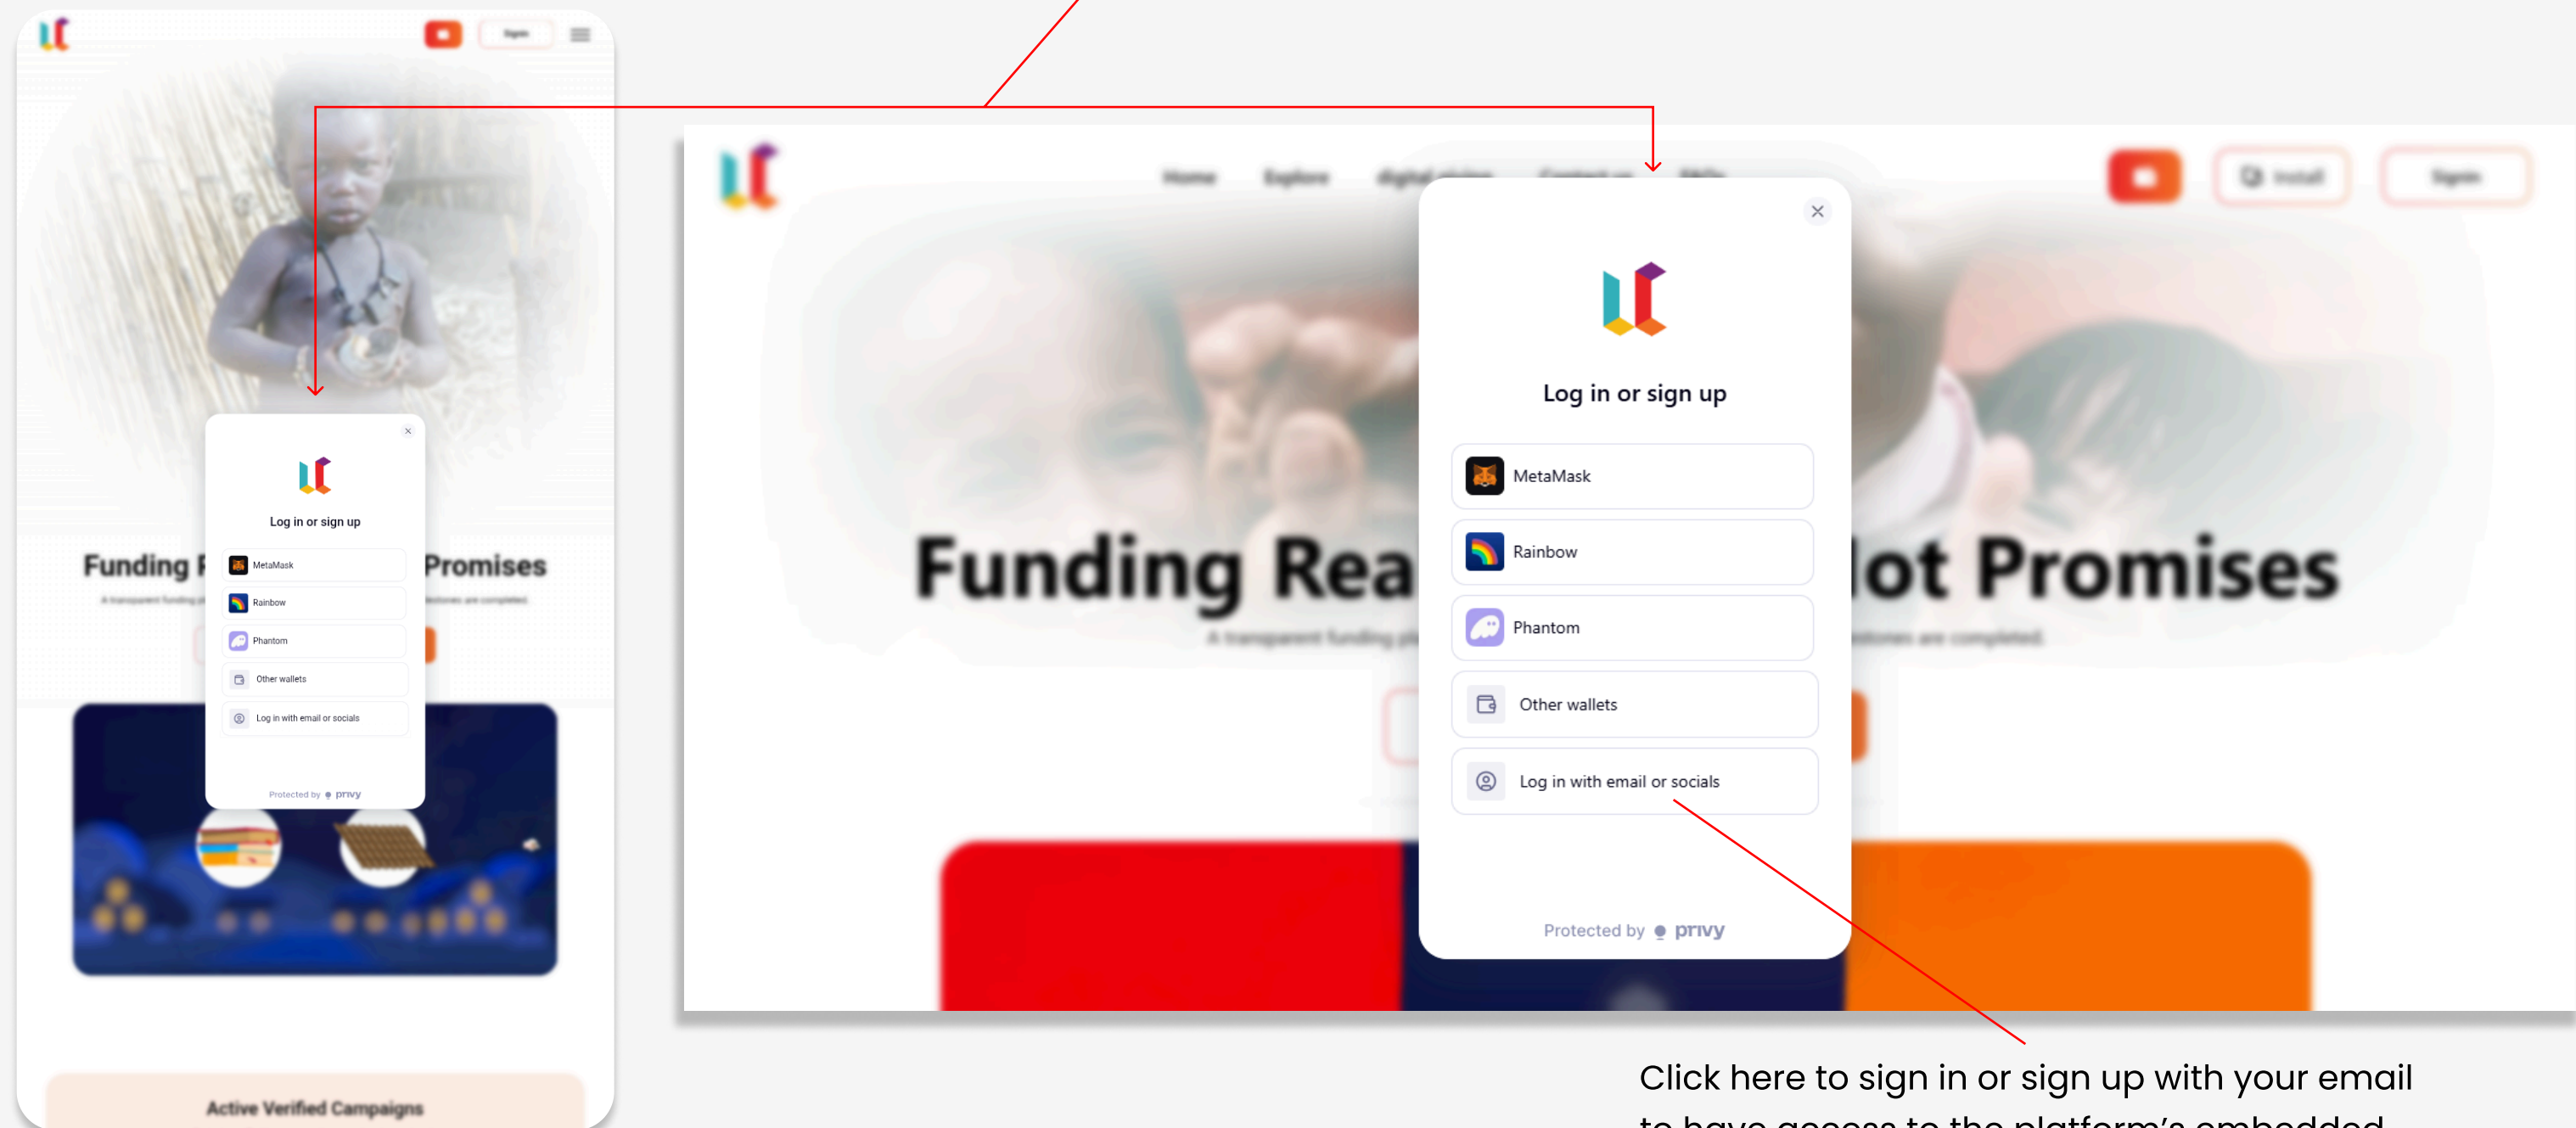

Connecting your Wallets on the U4C website

Click on the **connect wallet** button, a pop-up menu will appear.
Here, select to open an embedded wallet or choose from a wide range of digital currency options available, that are acceptable globally.

Look out for this pop-up, select your account and connect. Additionally, you can browse from the list of 500+ digital currencies available.

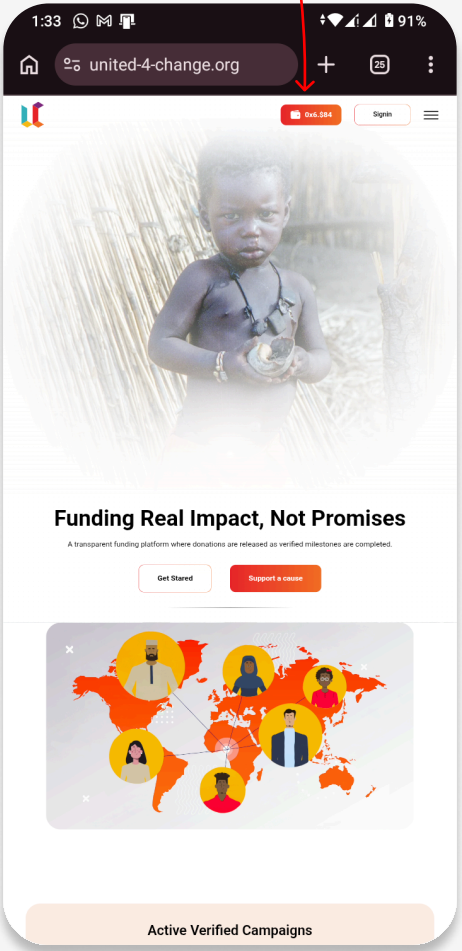

Click here to sign in or sign up with your email to have access to the platform's embedded wallet feature.

You can also connect from your Google account if your wallet is synced with Google and follow the necessary steps. Additionally, please note that you will be redirected to the digital wallet's official website during this process after which you can come back to the U4C tab.

Confirmation & next steps

The wallet icon will change as a result of successful connection to your wallet. Begin transacting within the platform from there

NB: If you do not have funds on your account, kindly use the options available to fund your digital wallet before proceeding with transactions

Downloading the App

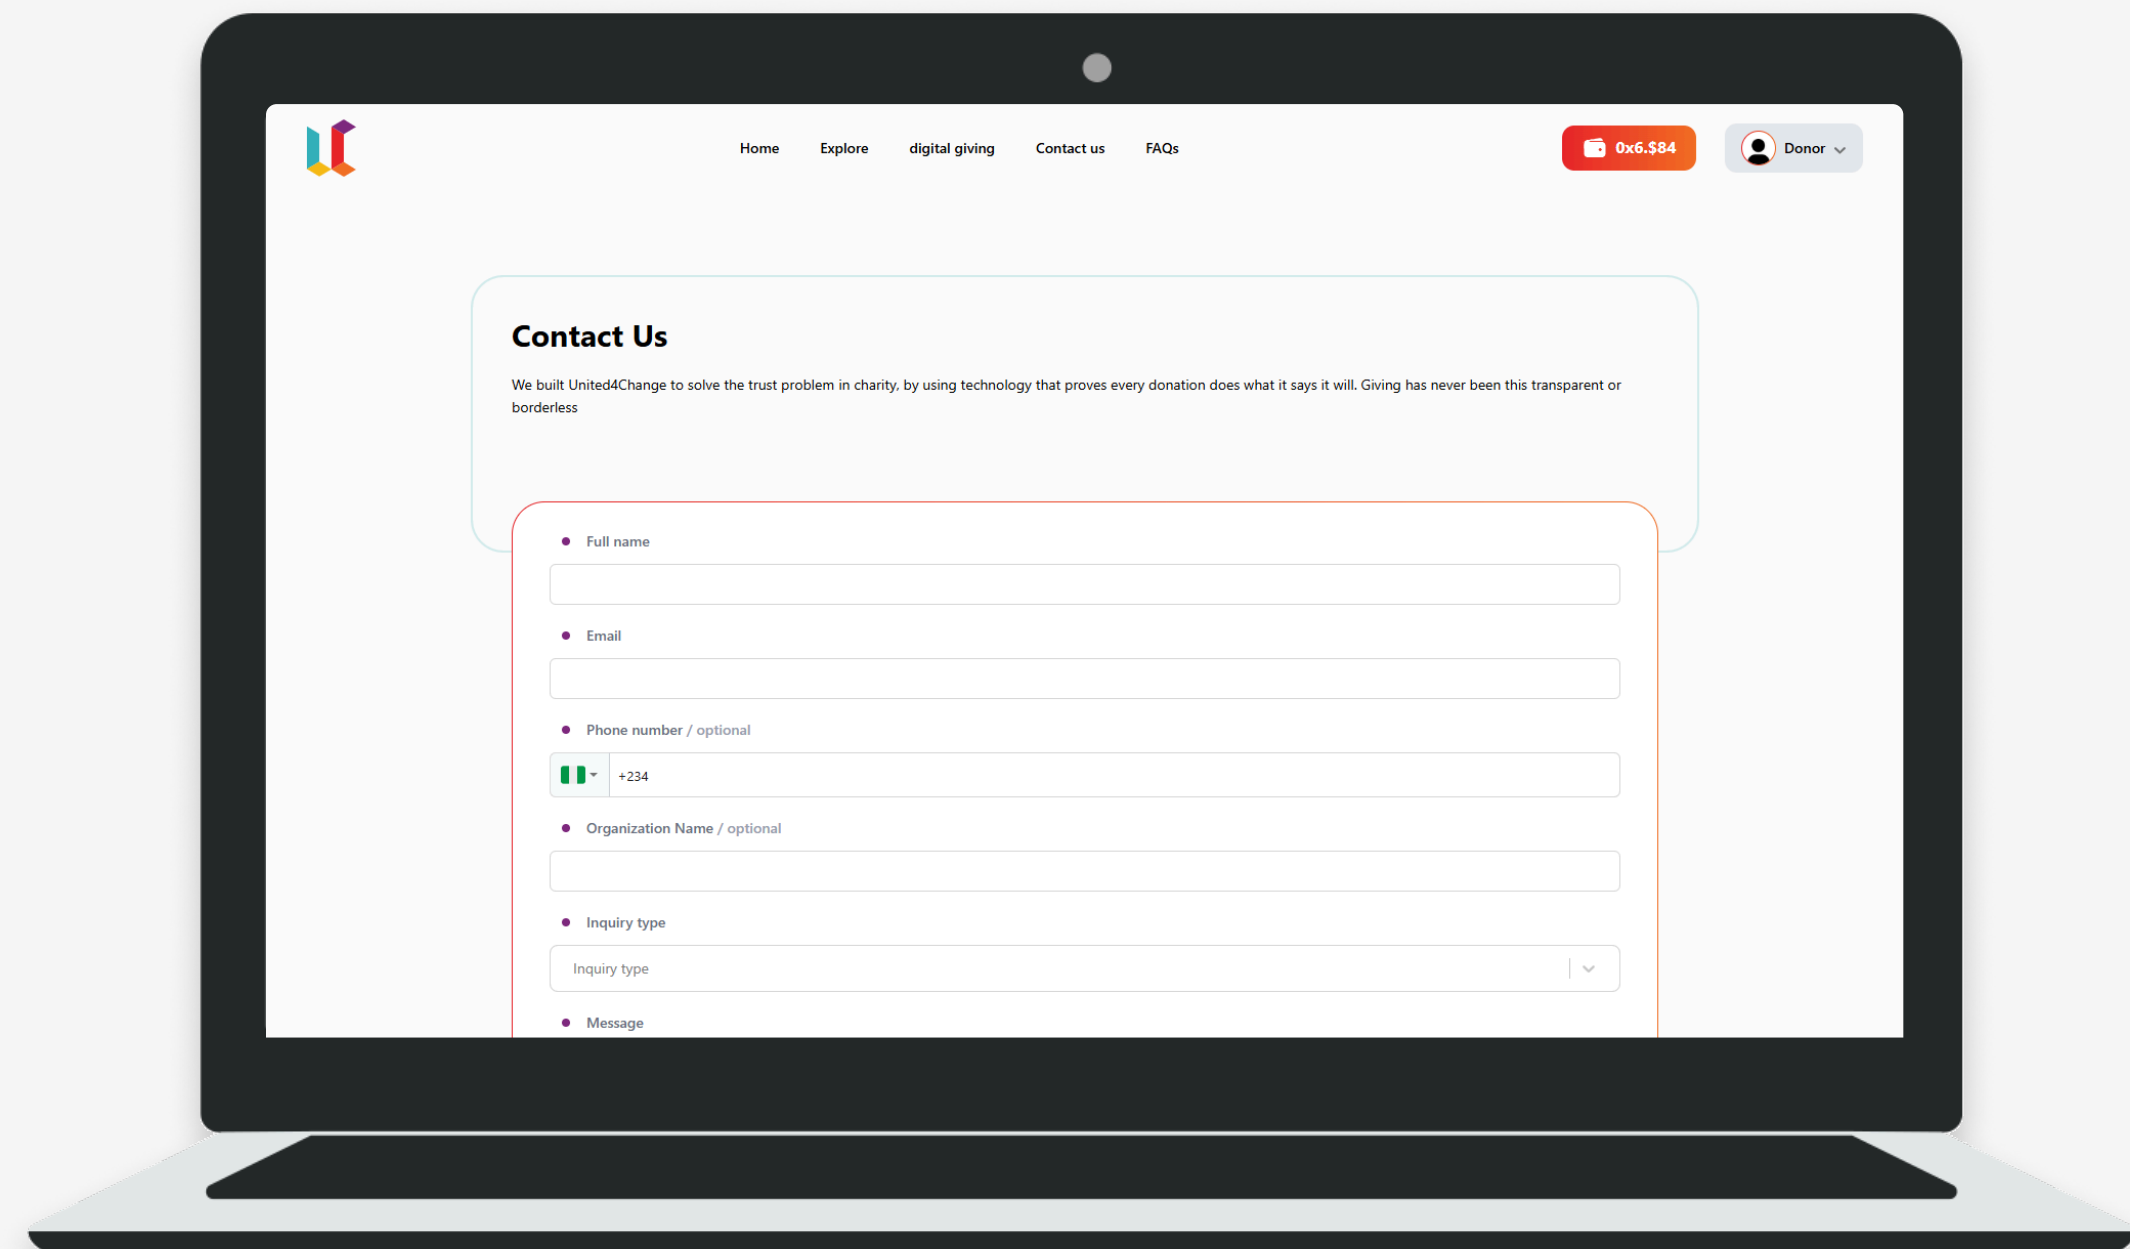

Click the button to download the app in one go.

Locate the U4C app on your desktop screen.
You can also pin to the Task Bar for easy access.

Contact Us

The **Contact us** tab is right at the top of the screen along with other function tabs.

Fill in your correct information, ensure your wallet is connected and funded and cross-check your information and send.

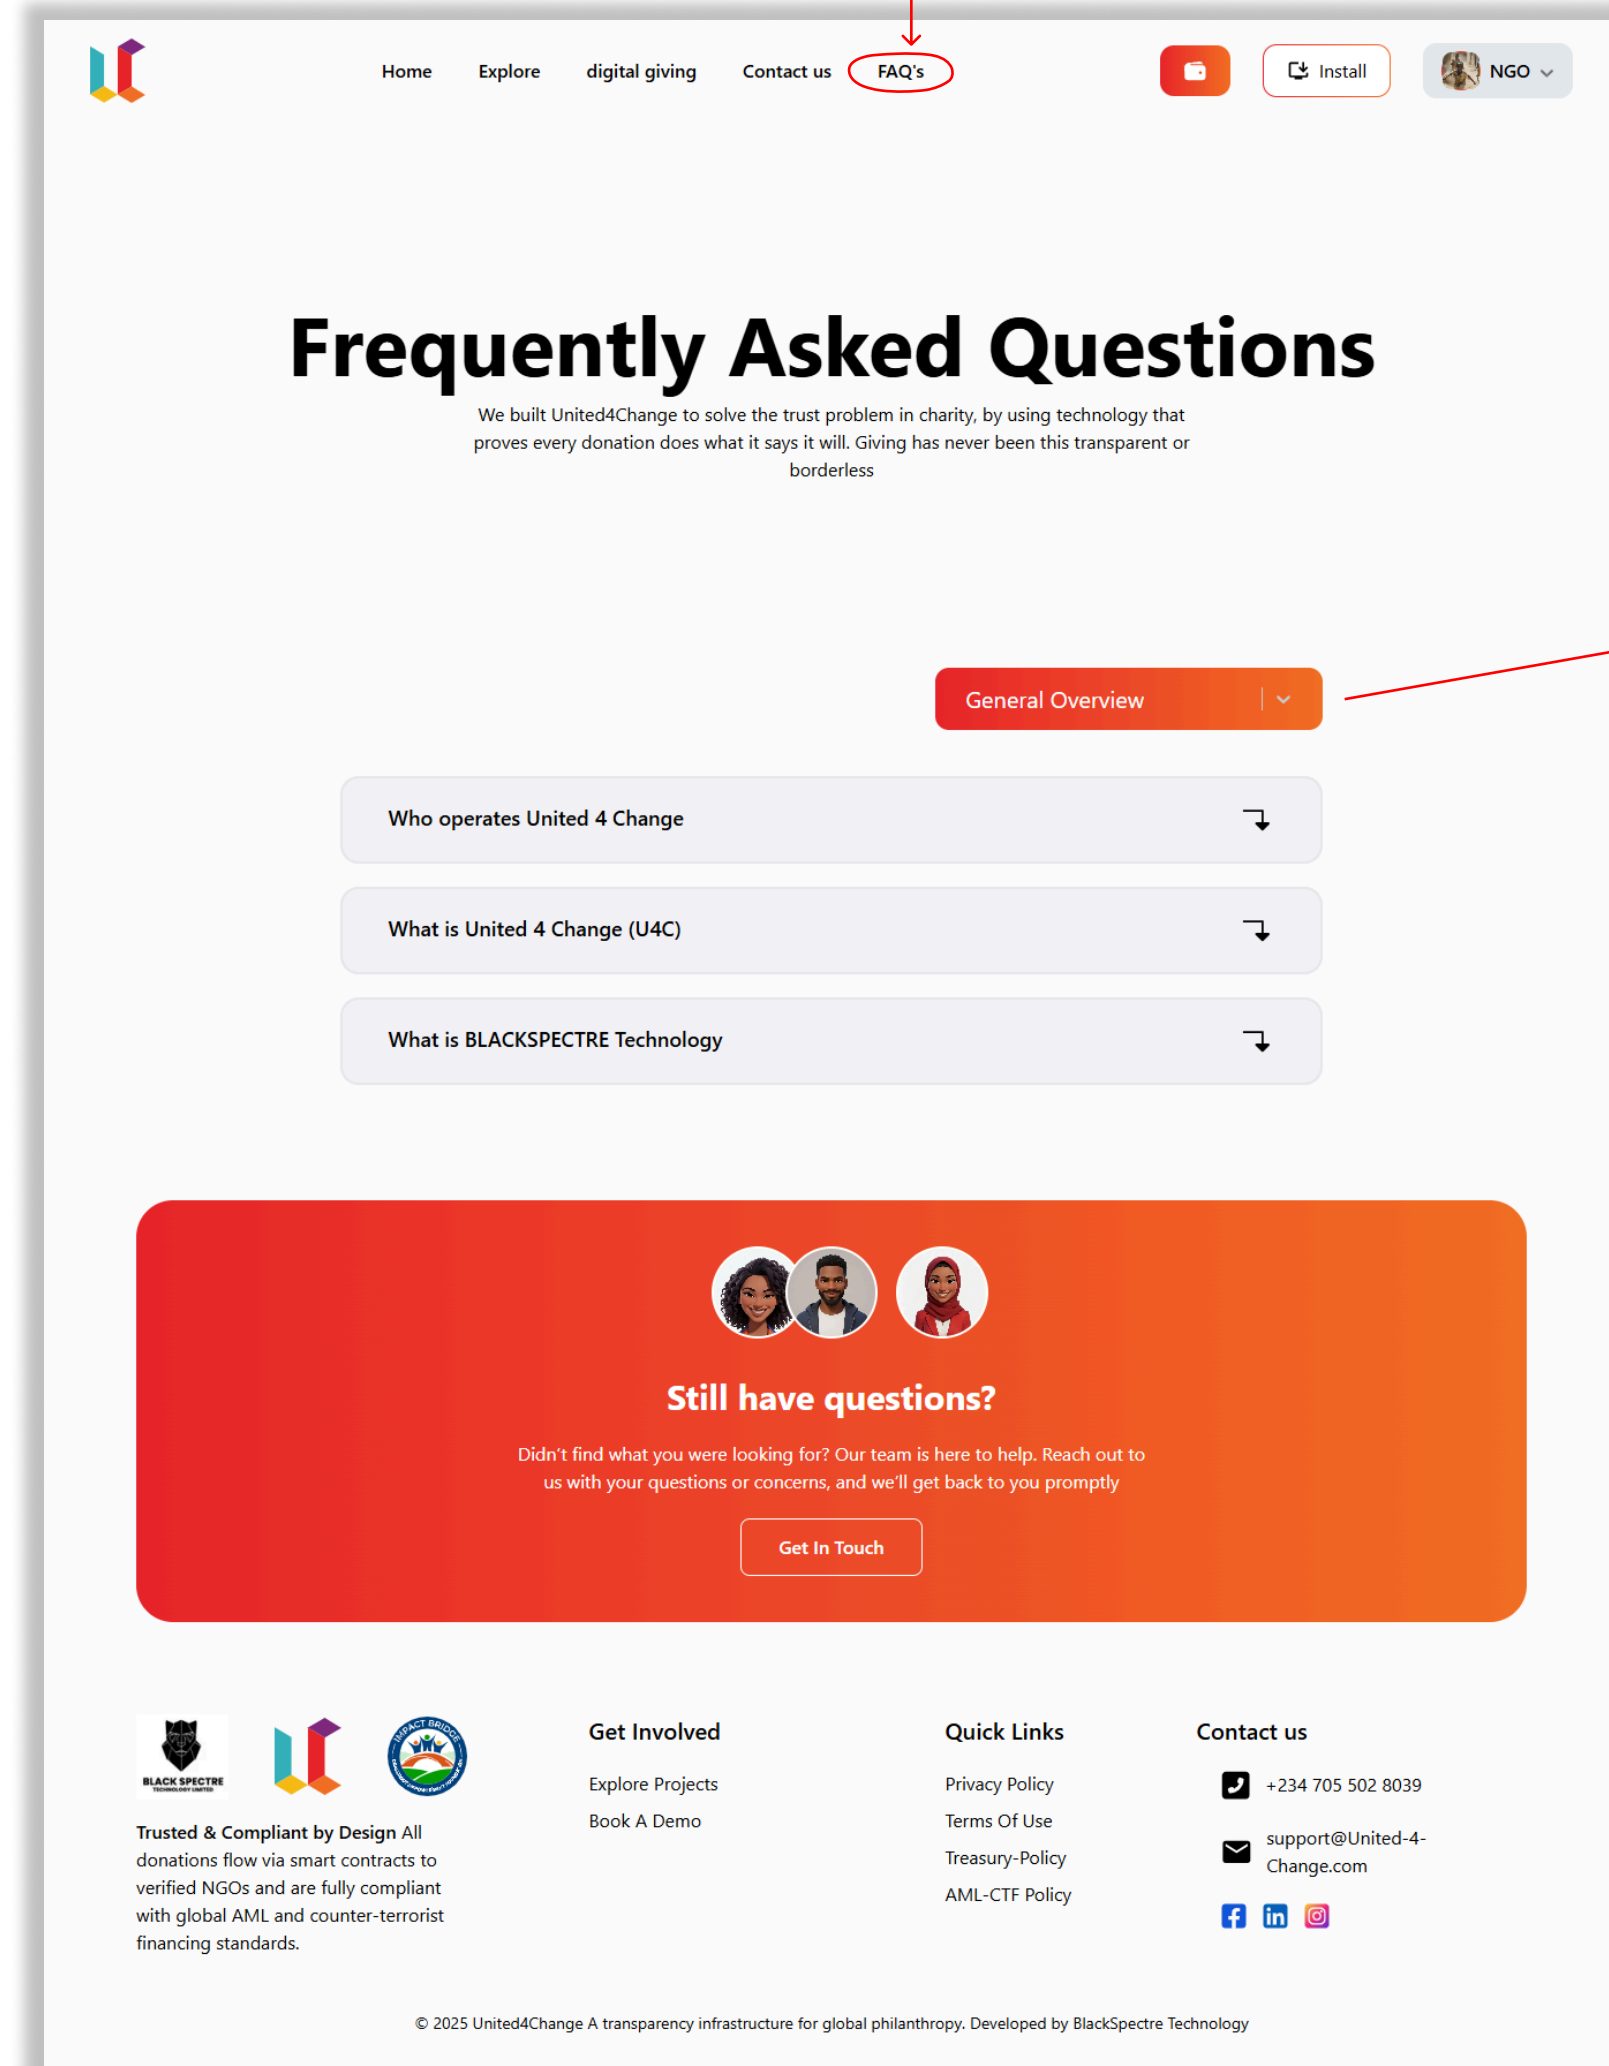

FAQs

The **FAQs** tab is right at the top of the screen along with other function tabs.

NB:

The FAQs section of the website is grouped into eight (8) parts. Each part addresses some particular concerns or questions you might have as a user on the U4C platform.

Click on the drop-down to view each FAQ section.
